## Middle West Spirits Job Opening

FTE: Distillery Processing and Blender Operator

### Position Summary:

The Distillery Blender's main responsibilities will include blending for bottling and barreling following the procedures and schedule determined by the Distillery Warehouse Manager.

Candidates who apply must have experience with food/beverage processing. In addition, attention to detail, organization, and a focus on safety protocols are requirements for this position. This person must possess the ability to work in a physical environment that requires climbing ladders, frequent heavy lifting, and be able to safely operate a forklift.

Other duties include, but are not limited to;

- Blending spirits using recipes, gauges and analytical equipment
- Take accurate and precise measurements using laboratory equipment
- Fill out batch/blend logs, apply barrel tags, and palletize and band barrels for storage/shipment
- Complete cleaning checklists after each batch is complete
- Support the warehouse team to ensure accurate barrel inventories
- Maintain a clean and safe work area

### Qualifications

- Be at least 21-years of age
- Detail oriented
- Strong work ethic and ability to work independently as well as on a team
- Experience working in a warehouse and/or food processing environment
- Basic math skills
